Cirrus SR22 G2 Transition Training

JWN Wings has its own SR22 G2 available for Transition Training or we can train you in your own aircraft. We provide ferry services and can accompany you for delivery of your new aircraft. If you'd like we can also provide pilot mentor/instructor services when you'd like to use your own aircraft, but not worry about all the flight details of planning the trip.

Our rates for all services are \$75/hour to a maximum of \$500 per day
(14 hours is the maximum duty day).
